

**WAYNE COUNTY CHILDREN SERVICES BOARD
COVID-19 Screening Checklist**

As you know, COVID-19 continues to evolve. Given this, we are conducting active screening for potential risks of COVID-19 with everyone visiting WCCSB to ensure safety and well-being for everyone. Thank you for your understanding and cooperation. Your health and safety are a priority for WCCSB.

Name: _____ Date: _____

To start the screening process, please wash your hands or use hand sanitizer.

1. Temperature monitoring is a recommended prevention measure for COVID-19. If your current temperature is 100.4 or higher you are running a fever. We are unable to allow you to be present at WCCSB today.

Checked Temperature: Yes No

2. Have you had any of the following symptoms over the last 14 days:

- Fever (greater than or equal to 100.4 degrees) Yes No
- New Cough or Shortness of Breath or Difficulty Breathing Yes No
- Chills Yes No
- Muscle or Body Aches Yes No
- Sore Throat Yes No
- New Loss of Taste or Smell Yes No
- Nausea or Vomiting or Diarrhea Yes No

If you answered Yes to any of the items listed in Question 2, we are unable to allow you to be present at WCCSB today.

What to do if you have COVID-19

It is recommended that persons with COVID-19 do the following regardless of symptoms or vaccination status:

- Isolate for five days regardless of symptoms or vaccination status.
- On day six if you have a fever or other symptoms that haven't started to get better you should stay home until your fever is gone and other symptoms are better, and wear a mask for the next five days.
- On day six if you do not have a fever and other symptoms have started to get better, you can resume activities with a mask; wear the mask for the next five days.

3. Are you fully vaccinated for COVID-19, including a booster, within the last six months? Yes No

4. Have you had close contact with a person with a confirmed or possible COVID-19 illness within the last 48 hours? Yes No

Close contact includes:

- Less than six feet apart for more than 15 minutes in a 24-hour period
- Strenuous activity together
- Riding in a car together, or prolonged periods of time in enclosed environments

See reverse side for instructions regarding people who have been exposed to someone who has COVID-19.

WHAT TO DO IF YOU WERE EXPOSED TO SOMEONE WHO HAS COVID-19**

And, Your COVID-19 Vaccines Are Up-to-Date

- If you received a booster dose of any COVID-19 vaccine.

OR

- If you completed the primary series* of Pfizer or Moderna vaccine less than six months ago.

OR

- If you completed the primary series* of Johnson & Johnson vaccine less than two months ago.

- Wear a mask around others for 10 days after your last exposure.
- Test on day five.
- If you develop symptoms or test positive, stay home.

If you tested positive for COVID-19 in the 90 days before your exposure.

- Wear a mask around others for 10 days.
- If you develop symptoms, get tested and stay home.

WHAT TO DO IF YOU WERE EXPOSED TO SOMEONE WHO HAS COVID-19**

And, You are Unvaccinated or Your Vaccines Are Not Up-to-Date

- If you are unvaccinated or only received one dose of Pfizer or Moderna.

OR

- If you completed the primary series* of Pfizer or Moderna vaccine more than six months ago.

OR

- If you completed the primary series* of Johnson & Johnson vaccine more than two months ago and no booster.

- Stay home for five days after your last exposure, then wear a mask around others for the next five days.
- Test on day five.
- If you develop symptoms or test positive, stay home.

*A primary series consists of one dose of Johnson & Johnson vaccine; or two doses of Moderna or Pfizer vaccine; or three doses of Moderna or Pfizer vaccine if you received an additional dose because you are immunocompromised.
